RECENT PROJECTS

Medical Ethics

Freelance | Fullstack Development | August 2016

This site was built for an academic who has multiple sections of a medical ethics course each semester. This site will allow for easy submission and reference of student work. Built with Javascript, Angular, Express, Node, MongoDB, Bootstrap, and SweetAlert.

The Belchers

Freelance | Fullstack Development | July 2016

This was a quick and fun side project I did to teach myself how to use Zurb Foundation and Angulike and explore flat design. I also used Javascript, Angular, Express, Node, and MongoDB to build the site.

Cell Phone Store

Freelance | Fullstack Development | June 2016

The client-facing pages of this site allow customers to register, login, get quotes, and sell their electronic devices, as well as track their purchase history and message the company. The admin pages of the site allow the owner to track incoming sales, manage sales and customers, as well as manage and update devices. This project is built with Javascript, Angular, Express, Node, MongoDB, Bootstrap, and SweetAlert.

EDUCATION

Michigan State University

Master of Arts in

Philosophy

University of South

Florida

Bachelor of Arts in

Philosophy

EXPERIENCE

Code Mentor

Coding House | Fremont, CA | May-July 2016

Teaching and guiding bootcamp students to become proficient in self-directed learning and debugging of javascript and MEAN stack web applications.

Philosophy Professor

Eastern Michigan University | Ypsilanti, MI | 2010 – 2016

Facilitate engaged instruction in logic, philosophy, feminist theory, and ethics courses. I guide students to read and analyze texts, think critically about current events and issues, and apply their knowledge in real life cases.

Owner-Operator

Flowers And More | Tampa, FL | 2000-2008

Oversaw all operations including hiring, training, marketing, purchasing, and quality assurance.

I started this business with \$200, built it to nearly \$1 million in annual revenue, and sold it in 2008.
